

3<sup>rd</sup> EERA-EARLI Spring School on  
Advanced Methods in Educational Research

## MULTILEVEL MODELS: THE NEXT GENERATION

From February 18–22, 2013  
Dortmund, Germany

The one-week spring school is the third in a series of spring schools on advanced methods in educational research. The spring school is initiated by the EERA-EARLI and organized by the Universities of Cyprus, Dortmund, Gothenburg and Oxford.

The Spring School is aimed at doctoral students and postdoctoral fellows. The third spring school is about:

### Multilevel Models: The Next Generation

It will involve a mix of lectures and workshops in computer labs delivered by Joop Hox (Utrecht University). The third spring school from February 18–22, 2013 is hosted by the Institute for School Development Research in Dortmund.

The number of participants is limited to 25. Applications should include a CV, an abstract (about 300 words) for the poster you would like to present at the spring school and one letter of recommendation. Please send your application to [eera-spring-school@ifs.tu-dortmund.de](mailto:eera-spring-school@ifs.tu-dortmund.de) as soon as possible, but at latest December 24. The review will be finished rapidly and we will send out invitations promptly. For further information see: [www.ifs-dortmund.de/eera-spring-school](http://www.ifs-dortmund.de/eera-spring-school)

The registration fee of € 200 includes full tuition and accommodation.
